**Maryland Senate Budget & Taxation Committee Ranking Member
Responds to State's Spending & Affordability Committee Recommendations**

Annapolis, Md. – Today, Senator Paul D. Corderman issued the following statement following a virtual meeting with budget experts on the state's Spending and Affordability Committee.

"The growth of our budget has far exceeded our projected revenues. Today's recommendations only address one-time adjustments. None of them address the long-term structural issues. We need a budget to be presented by the Governor that addresses these structural issues by reducing spending as opposed to increasing the tax burden on Marylanders throughout our state."

A recording of the meeting can be viewed on the Maryland General Assembly website under "Other Committees."
